Auditors Welcome!

ANIMAL TRAINING 101 ONLINE CLASSES

Discover Professional Training for Professional Animal Trainers
Unlocking The Secret Science of Motivation
with Dr. Jenifer Zeligs

Improve your relationship with your horse and enjoy 2 days of hands-on workshops with Dr. Zeligs, her assistants and other rider trainers! Dr. Zeligs is a professional animal trainer with a Ph. D in Animal Behavior, years of experience with many species of animals in a broad variety of settings, has been featured in multiple documentaries and television shows, is a professor at Cal State University Monterey Bay and is the owner of Animal Training and Research International. For more information go to: <https://animaltraining.us/about-2/>

Focus for this clinic is on: How to improve the relationship with your dressage horse by incorporating more positive reinforcement training strategies into your current program. Build more enthusiasm for training sessions, reduce anxiety and help prepare your horse for veterinary exams and for the farrier.

Does your horse “mug” you for treats so you don’t use them as a reward? Dr. Zeligs will show you how to use treats effectively and with your horse’s respect and trust.

Day 1- safety (antecedent arrangements), bridging and safe feeding, calm defaults and introduction to targets

Day 2- moving targets and using targets and R+ to promote reduced anxiety during medical work/farrier.
